Braintree Conservation Commission

Minutes, June 12, 2024

June 12:

Present: Paul Shriver, Chelsie Brown, Linda Morse, Sanders Stephen, Gina Logan

Members of the public were present: Joann Garton, Marlys Eddy

This report is a brief summary, as the data from the report can be accessed as needed.

Previous meeting's minutes were accepted.

Old Business: ash tree inventory results; reports from Joann and Marlys

Discussion of report

Money issues: as EAB is not a "federal" pest, there is no federal funding; there may be some funding in future from an umbrella grant

Wood utilization? First dibs to landowner . . .

Joann has some case studies. Meanwhile, the report should go to the Selectboard, and also we should ask that some money be put into an EAB account as a line item in the budget

Joann will also help us with a skeleton plan/ guidance as we go forward
